MEMBERS OF OHIO'S QUOTA INDORSE BILL

Will Ask Governor to Call Extra Session.

FIVE OPPOSED GERRYMANDER

Sherwood Placated by Annexing Ottawa County to Lucas to Form Ninth District—Sharp Will Not Favor Measure Passed at Special Session—Must Unite on One Measure Before Harmon Will Call Legislators to Columbus.

Columbus, O., Nov. 15.—After a lengthy discussion of the subject, a majority of the 16 Democratic congressmen from Ohio formally decided to ask Governor Harmon, through a committee, to call an extra session of the legislature for the purpose of gerrymandering the congressional districts of the state.

The tentative gerrymander bill was agreed upon by all the congressmen except Ashbrook of the Seventeenth district, Francis of the Sixteenth, Post of the Seventh, Bathrick of the Nineteenth and Sharp of the Fourteenth.

General Sherwood of Toledo was opposed to the bill until it was agreed to add Ottawa county to Lucas county to form the Ninth district.

Congressman Sharp was opposed to any redistricting bill which should be adopted by an extra session.

Governor Harmon has so far insisted there must be agreement of all the congressmen on a bill before he would consider calling a session. The day's efforts proved such an agreement impossible to bring about.

The committee which will wait on the governor is United States Senator Pomerene and J. Henry Goeke of Wapakoneta, representing the congressmen; Senator T. A. Dean and Representative W. D. Fulton, representing the Democratic members of the legislature; State Insurance Superintendent Moore and State Oil Inspector Finley, representing the Democratic state organization.

(Continued on Page 6.)

CONGRESSMAN ASHBROOK

Is Opposed to Tentative Gerrymander of Districts.

POMERENE'S AMBITION

Senator Says He Will Do Best to Jail Trust Officials.

Columbus, O., Nov. 15.—Senator Atlee Pomerene, while here to attend the congressional gerrymander, announced that he shall devote much of his time early in the session of congress to urging criminal prosecution of trusts. He said:

"The only way to prevent the trusts from breaking laws is to send their officers to prison. John D. Rockefeller and other active heads of the Standard Oil must go to jail or the decision of the supreme court means nothing to the people when it says that the Standard Oil violates the law. The financial or the social standing of a criminal should not act in itself."

Ohio's Democratic Congressmen met at Columbus yesterday in caucus and a majority agree on redistricting plan, which, if passed puts Fayette county in a strong Republican district.

Chinese begin to see the dawn of freedom with the arrival of Kai at Peking. An agreement for peace may be the outcome of negotiations.

A tremendous coal strike and famine of "black diamonds" later in the winter is among the probabilities, as coal operators view present conditions.

Senator Atlee Pomerene is still on the trail of the trusts, riding his pet idea to "jail 'em" when convicted.

Unveiling the Silver Service Given to the Battleship Utah

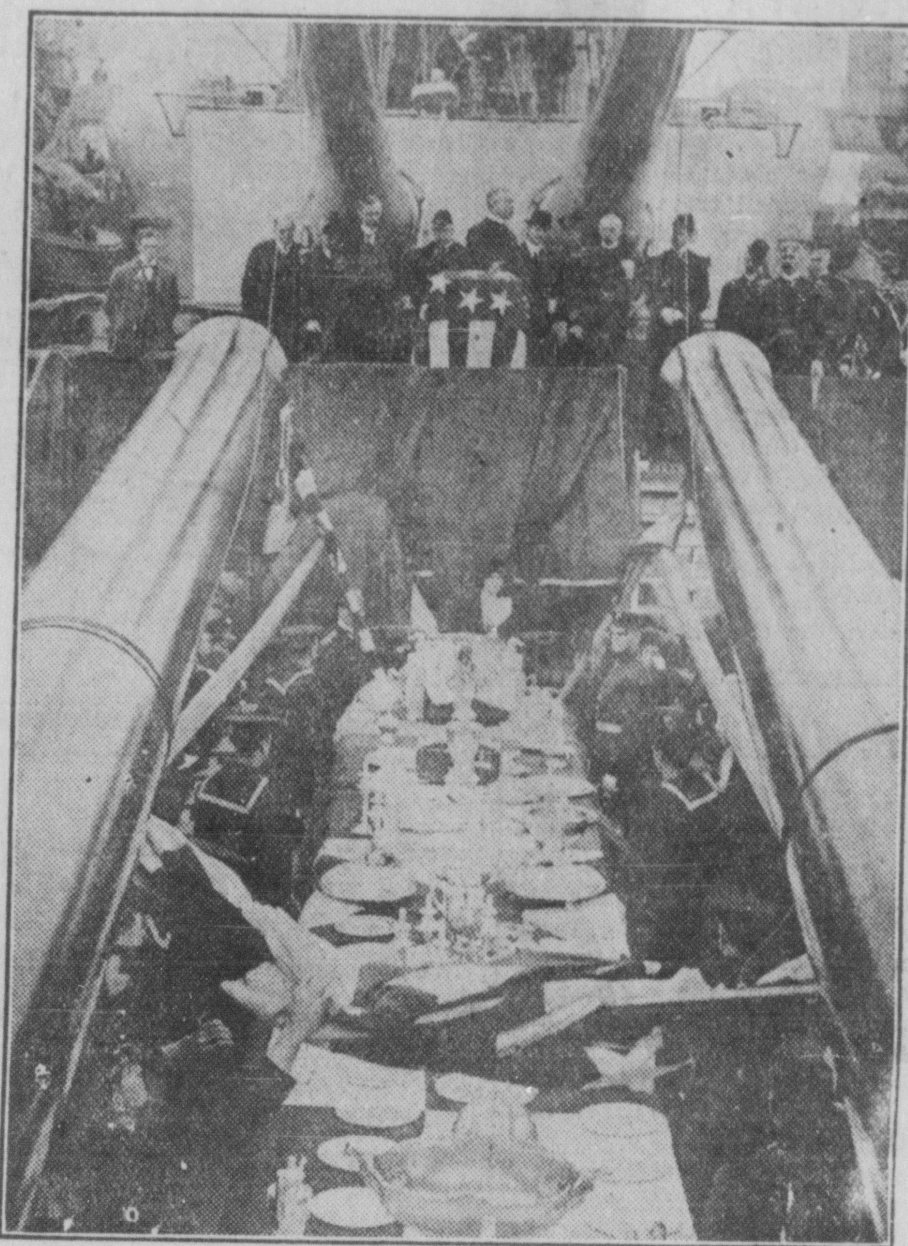

Photo by American Press Association.

DISTINCTIONS are crowding upon the battleship Utah. Not only is she one of the two largest battleships in the navy, but she is the possessor of the finest silver service ever presented by an American state to its naval namesake. Moreover, it is safe to say that no mess-room has ever had a thirst quenching apparatus that has excited more comment than this same silver service, and all because its decorations include a picture of Brigham Young. In the height of the controversy which raged over the presentation of silver so decorated it was declared that the representation of the Mormon apostle's statue implied the recognition and approval of all his teachings, including that of polygamy. The explanation offered by the donors is that the Young statue appears in the scheme of decoration because the Pioneer monument which it surmounts is one of the sights of Utah. The navy department has also accepted the gift of another silver tray, not bearing the picture of Brigham Young, to take the place, if the Utah's officers wish, of the one so decorated, so that they now have two handsome trays instead of one. There are 120 pieces in the original set, the most important of which is the punch bowl. The punch cups represent each a county in the state, its identity being established by a characteristic scene engraved upon it. Thirty thousand school children joined with the citizens of Utah in the purchase of the gift for the battleship. The principal feature of the presentation ceremonies, which took place at the New York navy yard, was the unveiling of the service—that is, the drawing aside of the American flag which screened it—by Miss Hazel Tout, a Utah girl, who is known to the stage as Hazel Dawn.

A BIG COAL STRIKE IS NOW PROBABLE ORGANIZERS ACTIVE

Operators See Signs of Uneasiness in Pennsylvania.

ANTHRACITE FIELD AFFECTED

Mine Owners Warn Big Consumers and Advise Purchase of Heavy Supplies in Advance—Organizers of United Mine Workers Are Busy Lining Up Workers in Favor of Eight-Hour Day and Full Recognition of Their Union.

New York, Nov. 15.—Activity of organizers for the United Mine Workers of America in the anthracite fields of Pennsylvania is causing talk among the big operators that another coal strike is a possibility.

Therefore, many are advising large users of coal to lay in a supply for use after March 31, when the present contract with the union expires.

Though no shortage in the supply is anticipated, unless indications of a strike become more alarming, some of the big operators have already declined to sell coal to other than their regular customers.

The fact that the United Mine Workers contract with the operators expires in a presidential year is a factor in the situation. A movement is said to have started in the anthracite fields to get the men together on demand for an eight-hour day and recognition of the union and check-off. These are practically the demands that led to the last anthracite strike, and will be opposed by the operators. Just what action the movement among the workers may lead to will not be known until the miners' convention is held in January.

CHINA BEGINS TO SEE LIGHT KAI ARRIVES.

JAMES M. LYNCH

President of the International Typographical Union

Photo by American Press Association.

Unions Start Genuine Movement

Will Investigate High Cost of Living Throughout Country.

Indianapolis, Nov. 15.—War against the high cost of food products throughout the nation by union labor is the aim of the "Cost of Living League," as announced here by the organized labor forces of the city.

James M. Lynch, international president of the typographical union, who is chairman of the committee which recommended the formation of the new league, said he believed organization and continued agitation will uncover the real causes of the excessive cost of living.

The plan of the committee, as outlined by Lynch, is that there shall be an interchange of information regarding the living cost as soon as other "Cost of Living Leagues" are formed in the different cities. Such an exchange of ideas, it is believed by the new organization here, will lead ultimately to methods whereby the problem will approach solution. It is planned to communicate immediately with union labor organizations in other cities regarding the formation of new leagues. As soon as the movement gains headway with the union forces, it is planned to devise a method to reach the unorganized workers of the nation.

Packers Spring Surprise.

Chicago, Nov. 15.—A further effort of the indicted Chicago meat packers to avoid trial and to have declared unconstitutional, void and of no force the Sherman anti-trust law, was made. The latest move was a surprise to the government and consisted in the surrender to the United States marshal of the packers and an immediate appeal to United States Circuit Judge Kohlsaat for a writ of habeas corpus. The arguments will be heard tomorrow.

Jury Acquits Husband Slayer.

Fort Worth, Tex., Nov. 15.—Mrs. Lacie Matheson, charged with the murder of her husband at Abilene, was acquitted after a jury had deliberated only 10 minutes.

Yuan's Presence at Peking Encourages Assembly.

ORDERED TO BECOME PREMIER

Lawmaking Body Holds Public Session at Which Plans For New Regency Council and Provisional Government Are Discussed — Rebels Reported to Have Won More Victories at Hankow—Peking Soldiers and Police Get Money For Loyalty.

Peking, Nov. 15.—With the arrival of Yuan Shih Kai, the national assembly seems to have gained courage and is holding a public session. Many of the members from the provinces, however, are at home attempting to conciliate the warring factions.

An edict orders Yuan Shih Kai to take up the premiership. Another edict directs the provincial viceroys and governors to choose industrial representatives to come to Peking to confer upon the situation. The throne will donate one tael to every soldier and policeman in Peking, presumably to induce them to remain loyal.

It is rumored that the national assembly and Yuan are arranging together for a new provisional government and a new regency council. After the imperial audience Yuan conferred with the president and vice president of the cabinet, which is still nominally in power. Yuan has received special dispatches from Hankow, but their import is not known.

It is reported that fighting continues at Hankow, the revolutionists winning additional victories. Hunanese troops are continuously joining the rebels.

New Railway Rates Enjoined

Commerce Court Again Balks Interstate Commission.

Washington, Nov. 15.—The United States commerce court, in its opinion filed granting a temporary injunction against the Interstate commerce commission in the important intermountain rate cases, strikes a hard blow at the commission's assumption of power to make blanket railroad freight rates for the entire country. The court's opinion, although relating only to the temporary injunction restraining the commission from enforcing its orders pending a determination of the merits of the appeals, clearly showed that the court will permanently enjoin the enforcement of the sweeping reductions ordered by the commission. These reductions affected practically every railroad in the country and applied to nearly all articles in interstate commerce. The order of the commission was one of the most important ever entered by it, in many cases the reductions in rates ordered amounting to 20 per cent.

The opinion of the court puts a stop to the interstate commerce commission's attempt to divide the country into rate zones and to apply general rates to these zones without investigations in specific instances. The court holds that this is entirely beyond the power of the interstate commerce commission.

Will Review Diegel Case.

Columbus, O., Nov. 15.—Rodney J. Diegel, former sergeant-at-arms of the senate, gets another chance to escape the penitentiary. The supreme court allowed his motion for permission to file a petition in error to the Franklin county circuit court. Diegel's attorneys will at once file this petition. It is probable that the case will be set down for an early hearing by the court.

GRANGERS WILL KEEP CLEAR OF THE POLITICS ACTION IS FINALITY

Table Resolution Relating to Initiative and Referendum.

Columbus, O., Nov. 15.—Members of the Ohio State Grange took an indirect slap at the initiative and referendum when they tabled a resolution bearing on the subject. The grange committee failed to report on the resolution favoring the initiative and referendum, and in submitting the resolution made no recommendation, but expressed antagonism to direct legislation. "Keep out of politics," warned one granger, and others took up the cry. Opinion was widely divided on the question.

Resolutions adopted declared for an extended parcels post, woman's suffrage, pure seed laws, standardizing cream and ice cream, a law making the standard weight for a bushel of potatoes 56 instead of 60 pounds and for apples 48 instead of 54, extension of the postal savings bank system to fourth-class post-offices, exemption of mortgaged real estate from taxation and against the licensing of the liquor traffic and the present system of dairy inspection. The latter resolution stated that many municipal dairy inspectors and politicians are not experts, consequently not capable of performing their duties properly.

DIVORCED FIVE HOURS

Married Another Man---Justice Craig is Again Called Upon to Officiate at the Knot-tying.

In less than five hours after she had been awarded a divorce from Chas. Greenwalt on a charge of gross neglect, Luie Greenwalt, aged 20, had become the bride of Frank Lee, 27.

This unusual occurrence took place Tuesday, the Greenwalt woman being awarded a decree of divorce at 10:00 a. m., and shortly after dinner she re-appeared at the probate judge's office, accompanied by Frank Lee, and made application for a marriage license. The license was given them and they departed. Evidently there was no mourning over the loss of husband No. 1. Soon after leaving the probate

judge's office, Lee appeared at the office of Justice T. N. Craig, whose fame has spread so that he is now being termed "the marrying justice". After taking in the surroundings, Lee approached Judge Craig with the words: "Judge, can you tie a knot for me?" "I guess I can" was the reply, "Where is the woman?" "She is down street somewhere, and I will go down and hunt her up" is said to have been the bridegroom's answer.

Some little time afterward Lee appeared with his bride, and the words were soon spoken which made Mrs. Greenwalt, Mrs. Lee, the fee was paid, and they went upon their way rejoicing.

MOTHER WAS WISE.

Built Up Boy's Strength Instead of Giving Cough Syrup.

A lingering cough is a sure sign of weakness in a child, and the sensible thing is to build up the system. Then the cough will disappear.

But if the child has no appetite, then it needs Vinol, which has not a particle of the nasty, greasy smell and taste that make children hate cod liver oil. Vinol is so pleasant they like to take it and it builds them up wonderfully.

Mrs. R. Inza, of New York City says, "My little boy had a very bad cough for two months. I did not like to give him cough syrups for many of them are not good for children. But I did give him your delicious cod liver and iron remedy Vinol and one bottle caused his cough to disappear entirely and restored him to health."

We guarantee that Vinol will build up and strengthen weak, pale children and all rundown persons of every age. If it does not do all we claim we give back your money. Blackmer & Tanquary.

BEST AUTHORITY ON HAIR

Was Mrs. K. S. Mason of London, England. Her Old English Shampoo Cream is now offered to the public. It is made from tonic cleansing herbs which cleanses the scalp, removes dandruff and makes the hair grow. Try it. 25c at Blackmer & Tanquary and other druggists.

Art Photography

Superior knowledge and ability tells the same story in every profession. If it is quality you desire in your photograph, compare my work with others you have seen at the same price. I also have work at prices to suit every one. Some photographs as low as one dollar per dozen.

My window display will appeal to you, stop and look at it, then come in and order your Christmas work now, don't wait until December, for the more time you give me the better my work will please you.

Unclaimed Letters

On November 14, 1911, the following letters remained unclaimed for at the Washington postoffice:

LADIES.

Mary E. Coleman, Miss Elizabeth Daugherty, Mrs. Maggie Finney, Miss Effie Hoffman, Miss Idea Jones, Rachael Jones, Mrs. B. Jones, Miss Sarah Laughlin, Miss C. E. Miller, Ada Sturts (2), Miss Helen Willis, Anna J. Whingle.

GENTLEMEN

George Burfield, John Barton (2), Jeff Blanco, Norman Bays, J. H. Blakeman, Charles A. Campbell, Ed Dixon, C. B. Donaldson, Ernest El-Hott, Edward Firman, Wm. Henderson, C. E. Harrington, L. B. Jarrett, Thomas King, Chas. Limes, R. R. Lloyd, Simon Lalebo, Zake Mabra, Fred McBee, John Milton McCarthy, Pero Nantantity, Harve Walch.

J. H. CULHAN, P. M.

Hettesheimer is the jeweler that sells "South Bend Watches."

SEE WHAT IT COSTS

To Seek Office in Washington---The Expense is Not Heavy According to Reports Filed With Election Board.

In accordance with the law requiring all candidates to file a statement of all receipts and expenses of their campaigns, a large number of office seekers who went through the primary have filed their statements with George A. Gregg, clerk of the Board of Deputy State Supervisors of Elections.

The ten-day limit is not up, however, and all candidates have not filed their reports. Among those who have filed their reports are:

Glenn M. Pine, for City Auditor, who expended just \$1.75 for printing; Harry Rankin, City Solicitor,

paid \$3.60 for cards; E. J. Light, president of council made no expenditures. Wm. Sheets, councilman in 4th ward, expended \$5, paying Turner Randolph \$2.50 and James Henderson \$2.50, as workers in the two precincts of the ward. D. T. Veall, F. M. Rothrock, Geo. B. Cox, John Durant and J. E. McLean, councilmen candidates, returned no account of expenditures. Wm. DeWeese, for City Treasurer, made no expenditures.

All of the candidates received nothing. Other statements will be filed before the time limit.

CLUB NEWS

The first touch of winter did not prevent a good attendance at Tuesday night's Browning club, when the Art Department in charge of Mrs. Halle Whelpley, vice chairman, held up to the club women, Scotland in art.

Miss Ruth Reid opened the program with a piano solo, very artistically played. The miniature, portrait and landscape painters of Scotland gave material for an interesting paper by Miss Lillian Van Kirk. Special tribute was paid to Sir Henry Raeburn, the first of Scotch masters, who won a great reputation in portraiture. The School of Art in Edinburgh, developed largely through his effort and he was made president of the Society of Artists in Edinburgh.

Miss Wilma Hammer delighted the club with a reading.

Scotch songs and stories incident were entertainingly given by Miss Cora Pearce.

Robert Burns is accredited with adding sixty songs to the poetic code of Scotland.

Mrs. Morna Blessing Chapman favored the guests with a beautiful piano solo.

Haunted Pullman On B. & O. S. W.

A story is said to be going the rounds that a Pullman sleeper, formerly on the Main line of the B. & O. but now in use on the Midland division, which passes through this city, is haunted, and it is further claimed that all who have anything to do with the sleeper, swear that the tale is correct.

It seems that some time ago the car was put out of service for repair and at that time all the electric bells were disconnected.

They never were connected up again, but notwithstanding this fact, since the sleeper has been put back into service, one particular bell persists in ringing without electrical or human aid at stated intervals each night. As a result the porter on the car, a superstitious negro, is just about ready to quit, while many others who have witnessed or rather heard the performance of the bell, are at a loss to explain the phenomenon.

It rings, and that is all that anyone can say, and furthermore, although all electrical connections have been cut off, it registers in the drawing room every time it does ring. No wires are connected to the bell, no far could possibly cause it to ring, and 'tis said that many have accepted the explanation of the porter in charge that "hants" have taken charge and are responsible for the nightly performance.

Xenia Republican Is in New Hands

Xenia's oldest newspaper, the Xenia Republican, has changed hands, Messrs. F. L. and Burch Smith disposing of their interests to Dr. Austin Patterson and Findley M. Torrence, who will have full charge after January 1st.

The Smith brothers will become proprietors of the Smith Advertising Company, a new publishing house in Xenia. The Republican will be conducted along the same lines as heretofore.

SALE.

The Olive Aid Society of the Mt. Olive church will hold a sale of home baking and produce, consisting of dressed chicken, butter, eggs, cottage cheese, bread, cakes, cookies, doughnuts, and pumpkin pie, at The Allen Construction Co., opposite Dale's Store, West Court street, on next Saturday, November 18th, beginning at 9:30 a. m.

LEO KATZ & CO.

FREE IF IT FAILS.

Your Money Back if You are not Satisfied with the Medicine We Recommend.

We are so positive that our remedy will permanently relieve constipation no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold in Washington only at our store—The Rexall Store. Blackmer & Tanquary.

To Extend Road Through Vinton

Representatives of the Columbus and Southern railway have purchased enough land at Allensville, eight miles northwest of Hamden, for the location of depot buildings and yards for the new railroad which is to be extended through that inland Vinton county town and thence through Hamden to the Ohio river.

An effort is being made by the McArthur board of trade to induce the projectors to divert the road to the county seat.

The gross earnings of the road, a part of which is through the Salt-creek valley in Pickaway county, are given at \$10,948.

A FAMILY SQUABBLE

The Cause of Trouble in the Northern Section of City---Elton Rhoades Arrested---Trial Continued.

Elton Rhoades, residing in the northern outskirts of the city, was placed under arrest first of the week, upon an affidavit filed by Volney Donnard, charging him with assault and battery upon the person of Della Johnson.

Rhoades is accused of going to the home where Della Johnson lives, and trying to take away one of his minor children who has been making its home with the Johnsons or Donnards. An altercation is alleged to

have taken place in which Rhoades is charged with having struck Della Johnson and knocked her down. The Johnson woman is in a very bad condition physically, and liable to great injury from such an attack. Rhoades is alleged to have made.

The case came up for hearing Tuesday evening, but was continued over until later. Indications are that the mix-up was nothing serious, and it is expected that a compromise may be made.

Imp and Champion Tonight THE PALACE!

The Copperhead. WAR DRAMA.

A very interesting story of Civil War times.

Imp A Biting Business Imp

A dandy Imp comedy-drama. Principal part played by William Daily, who is without doubt one of the best old-man character actors on the American stage.

Poem... Mrs. Robinson. Instrumental music... Mrs. Wurrle Goodwin. Vocal Solo... Miss Chloe Brock. Recitation... Miss Esther Leland. Reading... Miss Glenna Ford. Instrumental Music... Miss Ruth Allen. Bible Question contest. Refreshments.

DEATHS

HOSKINS.

Edna B. Hoskins, aged five years, daughter of Wheeler and Cora Hoskins, died Wednesday morning at 8 o'clock, at the residence on Cherry street. Funeral will be announced later.

KIRKPATRICK.

Amanda J. Kirkpatrick died at her home No. 809 South Main street at noon Wednesday. Funeral Friday at 10 a. m. Burial in Washington cemetery.

Spencer Trial Begins.

Springfield, Mass., Nov. 15.—An Indian head belt and a monogrammed locket are two of the most valued exhibits that the commonwealth has against Bertram G. Spencer, the soft-spoken young man who has been called the gentleman burglar, and whose trial for the murder of a Springfield school teacher settled down to real work. The belt was identified as the property of the girl friend at whose house Martha Blackstone, the young woman who was killed, was visiting when the man who shot her came into the room. It was found later in the house where Bertram lived with his wife and baby.

Soldiers Will Wear Sweaters.
Washington, Nov. 15.—Coats will no longer form part of the uniform of United States troops in the field. The war department has decided that a light sweater was just as comfortable and a more practical garment than the present service coat. This decision means that the soldier will not be as "dressed up" in appearance when parading.

Four Hours in the Mayor's Sweatbox

Fenton Placed in Jail

Brings Different and Supposedly True Tale From the Two Visiting Women.

Further sensational developments occurred in the Billy Fenton case Tuesday afternoon, when Fenton was arrested upon a charge of having sworn falsely in securing a license to wed Miss Ethel May Dixon.

When the affidavit was placed in the hands of Chief Devaney he went at once to the boarding house where Fenton and his young wife were staying, and found that Mrs. William F. Logan, the woman who first claimed to be his wife and later said she was his sister, and Mrs. May Golden, who had accompanied the woman, had stopped at the same place. All were taken to the Mayor's office. M. W. Dixon, Mrs. Fenton's father, was present.

Each of the quartet was taken into the private room and put through a sweat. Mrs. Golden at first claimed she was a half sister to the Logan woman and Billy Fenton, whose right name is William F. Logan. Her claim was substantiated by Fenton and the Logan woman. Later Mrs. Golden broke down and confessed that she had never seen the Logan woman until last Thursday. The Logan woman later admitted that Mrs. Golden was no relation. Fenton refused to admit it.

During the examination the young bride went from one outburst of tears to another, and her grief was touching in the extreme. When the preliminary examination was concluded after nearly four hours, Fenton and the Logan woman were consigned to the county jail to await further hearing Wednesday. When Fenton was led away his young bride sobbed as if her heart would break, declaring that she could not believe Fenton guilty; wishing that she was dead, and seeking comfort and sympathy among those present.

The father was present, but she refused to allow him to take her home as he wished, and angrily told him that she never wanted him to speak to her again. He was almost heart-broken, but returned home to comfort the grief-stricken mother.

Mrs. Golden and Mrs. Fenton were allowed to return to their boarding house. Mrs. Fenton made the discovery that her husband had taken every cent of her money, which she claimed had been given to the other woman. She was greatly displeased with this.

The Logan woman is addicted to the morphine habit, and shortly after being confined in the jail, she was raving for the drug, and it was hours before she became quieted down, following the visit of a physician who gave her some of the drug to quiet her. Fenton took his imprisonment very coolly, but stoutly maintained that he was a brother to the Logan woman.

Upon Mrs. Golden's story the greatest interest centers. Mr. Golden said that she met the woman in a restaurant, and was asked to accompany her, as she agreed to meet all expenses in the search for her husband, Billy Fenton. She agreed, and they went to Ironton, Portsmouth and from thence to Columbus, where they learned Fenton was at this city. They came down here, having previously agreed that Mrs. Golden should pose as her half sister. When Mrs. Logan was informed that Fenton was married, she almost fainted, and was in a dazed condition. This occurred at the Arlington.

After she had seen Fenton at New Holland she, according to Mrs. Golden, positively identified the man as her "lawful husband". It was agreed, when it became necessary, that they should pass as Fenton's sisters. This was carried out. After their meeting with Fenton, Mrs. Logan told Mrs. Golden, according to that lady's statement, that Fenton was her husband. Later, when Fenton had escaped the watchful and mistrusting eyes of his young wife, and was with Mrs. Golden and the Logan woman, the woman is alleged to have said to Fenton: "Billy, you can never live with that woman." Fenton is alleged to have wrung his hands and said that he was driven into the trouble, and was only awaiting an opportunity to get away from the woman whom he had married under the name of William Fenton. During his examination and in the presence of Mr. Dixon and others, Fenton stated that if he had it to do over again he would never marry Miss Dixon if he had to pass through all of the trouble again.

After the examination, Mrs. Fenton stated that when Fenton had remained in a room a long time with the Logan woman shortly after they appeared at the home of her father, that she had called him out and said: "Billy, I think that woman is your wife!" She said he became very pale and excited. Later he would not allow her out of his sight, and Monday night paced the floor, smoked cigarettes, and worked himself up to a frenzy, tearing his hair and said that he was expecting to be arrested at any time.

Mr. and Mrs. Dixon returned to this city Wednesday morning. Mrs. Golden and Mrs. Fenton were present, and a further examination was made Wednesday afternoon to ascertain whether Fenton could be held on a charge of bigamy.

Brakeman Horribly Burned Threw Gasoline in Stove

Explosion Resulted and in Fire Which Followed the Caboose of D. T. & I. Freight Was Consumed.

A most unusual and spectacular fire occurred at Jeffersonville a late hour Tuesday night, when the caboose on south-bound freight No. 55 caught fire and burned to ashes, and Brakeman Daniels was seriously burned before he could make his escape from the burning caboose.

The train was running along at good speed north of Jeffersonville when Brakeman Daniels discovered that the fire needed rekindling, and he picked up what he supposed was a can of kerosene, but which proved to be gasoline, and an instant later there was a loud explosion and the entire room was filled with flames.

It was with the utmost difficulty that Daniels made his escape, and when he did reach the outside he was horribly burned and his clothing was on fire. He was later sent to the hospital in Springfield.

Within a few minutes the caboose was a mass of flames, and when it was found that it could not be saved, it was uncoupled from the train and allowed to stand on the track some 200 yards north of the station at Jeffersonville, where it was quickly consumed.

One report was that a car of giant powder was in the train near the caboose, but it is believed this was merely one of the wild stories set

afoot following the fire. The train was in charge of Conductor "Davy Crockett."

News Was Spread In Amusing Manner

An amusing incident has just come to light in the Jeffersonville neighborhood over the non-appearance of Dr. Gunsaulus, second attraction on the lecture course. At the last moment when the committee received a wire that the lecturer could not appear, they resorted to the use of the telephone to notify over 700 patrons of the course.

A large number of persons were called and asked to call everybody else they knew, and inform them that the lecture had been postponed. This they did, and many persons were called more than a half score of times and notified by their friends that the lecture was postponed. The telephone girls were kept busy, but as a result only twelve persons did not receive the news.

DEVICE FOR FIREMEN

Helmet Enables Wearers to Rescue at Fires.

Has a Reservoir of Air, and Test Shows It to Be Effective—Has Been Adopted in Chicago.

Chicago.—Chicago fire officials have adopted a life-saving device to prevent suffocation. The apparatus resembles a life-saver's helmet and dress.

Lieut. Philip Ryan donned the apparatus in a test.

"It works fine," he declared, emerging from a subcellar filled with smoke. "I could breathe without any trouble. I figure that this new device will prove a great life saver."

Held close to the head by means of springs, the apparatus prevents the entrance of gas or other fumes. The fireman breathes through tubes connected with the body of the apparatus.

"The apparatus is just donned for the purpose of life saving," declared Thomas O'Connor, acting chief of the Chicago fire department.

"It is only possible to work in this uniform for about five minutes. That, however, would give us time to enter a building to rescue persons and emerge. Although we have made tests of the new apparatus, we have not as yet had occasion to bring it into actual use."

A New York device, which Chicago firemen believe to be impractical, is supposed to supply air to firemen working in cellars and lofts and is said to have withstood various tests. Alongside the nozzle carried by the

New Device for Firemen.

Firemen using the Halloran contrivance is a brass tube to which is connected a line of one-inch hose extending to the open air in the street.

This hose furnishes air for a suction which is caused by the powerful force of water sent through the nozzle.

The water rushes by an apparatus having direct connection with the air feeding pipe, and forms a syphon, which in turn is supplied to firemen. There are three supply pipes on the first model and these are held by the firemen in their mouths, with a hard rubber holder, which is perforated and looks like the noseguards worn by football players.

"While I will not say positively, not knowing anything about the experiments of the New Yorkers, it appears to me that a contrivance built according to the description would not be practical," said Assistant Chief O'Connor. "I have never yet heard of a contrivance which would protect firemen from smoke and fumes, especially ammonia fumes, for any great length of time."

"I consider our new device, which we have just adopted, is the nearest to perfection. We have tested it and have remained in smoke-filled basements for five minutes at a time."

O'Brien Presents Credentials.
Rome, Nov. 15.—United States Ambassador Thomas J. O'Brien presented his credentials to King Victor Emmanuel.

Piles! Piles! Piles!

Williams' Indian Pile Ointment will cure Blind, Bleeding and Itching Piles. It absorbs the tumors, allays itching at once, acts as a poultice, gives instant relief. Last Hope For Beattie Has Vanished

Special to Herald.
Richmond, Va., Nov. 15th.—Governor Maurr today announced his conclusion in the matter of the application for the exercise of executive clemency in behalf of Henry Clay Beattie, Jr., sentenced to be electrocuted on November 24th for the murder of his young wife.

The governor unequivocally declines to interfere with the execution of the judgment of the court and states that the sentence will be allowed to be executed on the day set.

CARD OF THANKS.

We wish to thank our many friends and neighbors for their kindness toward us during the sickness and death of our son and brother, Thomas Jones, who was called to the unknown shore Friday morning at 5 a. m., November 9th, 1911. We farther extend our thanks to the many friends who gave us so many beautiful flowers, Ada Chapter, the Court of Calantha, the Second Baptist church and Mr. William Hallwood, and to Mr. and Mrs. Dr. Howell for their kindness. (Signed), Mr. Paley Jones, mother and sister, Miss Hattie Jones.

TELEPHONES—HOME NO. 137. BELL, MAIN NO. 170.

THEN WHAT?

Since the invention of the steamboat, the cotton gin, the steam cars, the telegraph, the sewing machine, the telephone, the electric light, the phonograph, the linotype, the kinetoscope and the aeroplane, the discovery of anesthetics and radium, people wonder what can be left for on-coming generations to do.

There is a world of work ahead and not far ahead either.

Some of that work, entirely different but equally as important in its effect upon this nation and the human family is already entered upon.

During all the years of our material progress and our marvelous advance in the world of commerce and labor, immense forces unknown in the more primitive times, have arisen and advanced at the same rate as the inventors, the discoverers and the mechanics have advanced.

No enterprise of the most pronounced dreamer, if it contained any of the practical elements which held out even a faint promise of success, has been compelled to go without or to seek long for the "backing" to push it through.

Many of these projects, chimerical though they seemed at the outset, have succeeded, returning a reward to those who had the faith, fabulous in its immensity.

These enterprises have thriven and grown to such enormous proportions that the people have now turned their attention to the work of escaping from the consequences of their success.

Governmental questions have arisen which will tax, for their solution, the inventive genius and the brains of that stock which has given to the world the mechanical and industrial wonders of the last century.

Many of the problems which confront the statesmen of today are new problems in the history of man and governments, but they are not more difficult of solution than were the obstacles which barred the material progress of man a century ago, when problems of government were simpler.

It is but the other side of time's dial and material progress may be checked until that other equally important but neglected work is brought up.

Official life has undergone, in the last decade, a complete revolution. Conduct which was not only winked at then, but openly recommended as just the proper course, would, if resorted to now, drive the man who adopted it from public life dishonored forever.

New ideas in government are being advanced each day and some of them as impractical apparently as was the air ship of one hundred years ago.

People are learning more and more each day to consider new theories in government, more seriously than they did formerly. They are willing to listen to the radical who is just now, it seems, coming into his own.

We have lived through the era of the conservative until industrial progress has far outstripped the progress in the science of government.

The next century promises a regulation of powers which have grown up in the industrial and commercial world and an exercise of power by the people and an advance along lines long neglected, as startling in the success as has been that other progress.

The wisdom of modifying or repealing entirely the present constitutional limitations is being considered far and wide, party precedent and appeal to party preference have proven incapable of checking the irresistible current which has set in.

The men who sit back and after recounting past achievements ask what there is left to do, are beginning now to see the answer to their oft-repeated query.

This nation of ours promises to be just as busy a place during the next century as it has in the past and the torch of liberty will light the way to all people everywhere through the present labyrinth of governmental problems, just as it led the way to industrial and commercial supremacy in the years that have gone.

Prosperity Due to Wasteful Development of Natural Resources

By JAMES M'CREA, President of the Pennsylvania Railroad

CONSERVATION MUST BE TREATED IN TWO WAYS. FIRST, AS BEARING ON A RICH, POPULOUS AND FULLY DEVELOPED STATE, AND, SECOND, AN UNDEVELOPED, THINLY SETTLED AND POOR STATE OR TERRITORY.

Regarding the first, I think it is fair to assume that where a state is large and prosperous it is due almost entirely to the development of its natural resources, in many cases made in a wasteful and extravagant manner. Then comes the time for a most careful conservation of what remains.

In the case of the undeveloped, thinly settled and poor territory we are apt to find that the development of the natural resources local to it has been handicapped through the character of the climate, the lack of water and discomforts of and danger to life. Under these conditions rigid conservation cannot be practiced.

Poetry—Today

IFFING.

I don't go in for motoring,
I don't go in for yachting,
Of horses I can't own a string.
For showing off or trotting;
My hobbies and amusements all
Must be far less expensive.
Yet I've the one which has the call
For pleasure most extensive,
The one which takes me where I'd go
With all my wished surroundings,
Till I'm with happiness aglow,
Nor fear to take my soundings—
The hobby rare beyond compare,
To quote the English, spiffing,
That brings the joy without all
Joy,
The thrilling sport of iffing.

If this were so and that were so,
If all successes crowned me,
If I were Pierpont M. & Co.
With treasure heaped around me,
Or Frank L. Stanton, Mathewson,
Or Riley, dream unlifted,
Or George Ade or McCutcheon
Or some one else so gifted,
By men or Providence—you see
If I were just the fellow
Just that my fancy wished to be,
My world would all be mellow—
And dreaming thus I know
Awhile
The joys beyond all sniffing:
Come, friend of mine, the water's
Fine,
There's none to poor for iffing.
—Kansas City Star.

Weather Report

Washington, November 15.—Ohio and Western Pennsylvania—Snow, followed by clearing Wednesday; Thursday fair; moderate to brisk west and northwest winds.

West Virginia—Clearing Wednesday; Thursday fair.

Tennessee and Kentucky—Fair Wednesday and Thursday.

Lower Michigan—Snow, followed by clearing; and somewhat colder Wednesday; Thursday fair; moderate to brisk northwest winds.

Indiana and Illinois—Fair and somewhat colder Wednesday; Thursday fair and warmer; moderate northwest winds.

WEATHER OBSERVATIONS.

Observations of the United States weather bureau taken at 8 p. m. Tuesday:

Atlantic City	44	Rain
Philadelphia	34	Rain

Weather Forecast.

Washington, Nov. 15.—Indications for tomorrow:
Ohio—Fair; moderate to brisk west and northwest winds.

BAD BREATH.

It's Your Duty to Get at the Cause and Remove It. A Word to the Wise, You Know.

Dr. Edwards' Olive Tablets, the substitute for calomel, will positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant sugar-coated tablets are taken for bad breath by all who know them.

Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system of impurities.

They do all that dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Olive Tablets without griping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Olive tablets are a purely vegetable compound mixed with olive oil. Try Olive Tablets today. Take one every night for a week and note the effect.

"Every Little Olive Tablet has a movement all its own."

At all drug stores in hand pocket packages. At 10c and 25c. Made by the Olive Tablet Company, of Portsmouth, Ohio, or Columbus, Ohio. Dr. F. M. Edwards, President.

DRESS OF THE ESKIMO WOMEN

Their Apparel Is the Same Summer and Winter and Is Worn in the Same Way.

New York.—The dress of the Eskimo women is the same summer and winter, and is worn in the same way, writes Anna Bistrup, wife of the Danish governor of Greenland, in The Century. It consists first of a shift— which, in spite of the name, is, nevertheless, not shifted very often—made of common cotton stuff, and cut in the simplest possible form, with no embroideries. Over this they wear the

Eskimo Girl in Full Dress.

timlak, or bird's skin, with its colored cotton stuff for daily use, and woolen, silk or velvet for Sundays and holidays. The hood is never used by the women, who always leave it hanging down. Around the neck the young girls wear a collar more than a quarter-yard wide, made of glass pearls, set in the most varied patterns. This pearl collar is worn only by young girls, and by wives until they have got their first child. After that, the pearls are used as fringes and tassels for the amaut.

The pet garments of the girls, and of married women, too, are the breeches and the kamiks. They take much time to make these garments as fine as possible. The breeches, which are worn next the bare body, are made of costly sealskins or reindeer skins. They are not fastened to the body by anything, but their stiffness keeps them in place. The Greenlanders know nothing of buttons or hooks or buckles or braces, at least on the women's garments.

The kamiks consist of an inner stocking of skin with the hair inside, and an outer boot made of dyed or painted skin in the most screeching colors—bright red, blue, violet. The most valued are the white half-boots which are used on Sundays, holidays, and on certain occasions like marriages. The sole of the kamik is not hard and stiff, but soft and pliable. Between the soles of the inner and outer kamik is a layer of straw, that every day must be taken out and dried.

The hair-top, the national head-dress, is the darling of every young girl, and is put up twice or thrice a week. It is not taken down at night, and the women sleep with the top hanging out over the pillow's edge, which looks exceedingly funny if one happens into a sleeping-room at night. Round the top are wound ribbons of different colors, like standards, announcing the state of their bearers. The wives wear blue in all shades, the maidens red, the unmarried mothers green in all shades, and the widows wear black. All other colors are forbidden. In front they like to fasten on the ribbon some shining object, a brooch or an old earring. For lack of other things, they will pin on a piece of colored silver or gold paper. To get the top firm and stiff, the hair must be drawn very tight. In some the hair on each side of the head is torn out, and two large bald spots appear, which are not very becoming.

STEAL \$21,000 IN TOWELS

Passengers on the Southern Pacific Railway Also Take Linen From Boats.

San Francisco, Cal.—Twenty-one thousand dollars' worth of towels were "lost" by the Southern Pacific railroad last year and for that reason women who ride on its trains and boats will be compelled to furnish their own towels hereafter. The towels were stolen from the washrooms on the trains and boats, as many as a hundred towels disappearing on one run. Even roller towels were taken, though the company padlocked the racks to keep them from being removed. The towel thieves simply cut the towels and slipped them off. Individual towels disappeared so fast that they were replaced with rollers after being used but a short time.

Sees a Cure in Poetry.

Louisville, Ky.—"Poetry has as practical value as vaccination," declared Rev. Dr. E. Y. Mullins, president of the Southern Baptist Theological seminary here in an address to a local literary club. Duly read and appreciated, he said poetry is a real cure for the diseases which attend the feverish quest for gold. This virtue, he reasons, lies in the fact that thorough enjoyment of it demands relaxation.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

A MAIL CARRIER'S LOAD

Seems heavier when he has a weak back and kidney trouble. Fred Deuhren, Mail Carrier at Atchison, Kas., says: "I have been bothered with kidney and bladder trouble and had a severe pain across my back. Whenever I carried a heavy load of mail, my kidney trouble increased. Some time ago I started taking Foley Kidney Pills and since taking them I have gotten entirely rid of all my kidney trouble and am as sound now as ever." Foley Kidney Pills are tonic in action and quick results. Try them. Blackmer & Tanquary.

A HOUSEHOLD MEDICINE.

That stops coughs quickly and cures colds is Foley's Honey and Tar Compound. Mrs. Anna Pelzer, 2526 Jefferson St., So. Omaha, Neb., says: "I can recommend Foley's Honey and Tar Compound as a sure cure for coughs and colds. It cured my daughter of a bad cold and my neighbor, Mrs. Benson, cured herself and her whole family with Foley's Honey and Tar Compound. Everyone in our neighborhood speaks highly of it." For night coughing, dryness and tickling in the throat, hoarseness and all coughs and colds, take Foley's Honey and Tar Compound. Contains no opiates. Always in a yellow package. Blackmer & Tanquary.

DOINGS IN OHIO

City Must Pay Ballplayer.

Columbus, O., Nov. 15.—This city must pay Al Schweitzer, outfielder for the St. Louis Browns, \$400 damages because the baseball player fell in a ditch here and injured his throwing arm. The accident happened in 1907 when Schweitzer was playing with the Newark O. & P. league team.

Water Lease Canceled.

Columbus, O., Nov. 15.—Accepting the report of Chief Engineer John J. Miller that canal water in excess of the amount contracted for was being received by the Western Ohio Railway company and its power plant at St. Marys, the state board of public works canceled the contract.

Killed While Chasing Thief.

Cleveland, O., Nov. 15.—Relentlessly pursuing two car thieves through the railroad yards, Thomas Madden, 35, a Baltimore & Ohio detective, was killed here when he ran in front of a fast freight. Madden had just overtaken his men when they dashed in front of the train. Madden following.

Lynch Gets Pen Sentence.

Newark, O., Nov. 15.—Imprisonment in the Ohio penitentiary for a term of one year and three months was the sentence pronounced by Judge Weygant upon Frank Grad, who pleaded guilty to manslaughter in connection with the lynching of Carl Etherington.

This Is The Way Bryan Sees It

Nebraska Says Neither Party Will Have Landslide Next Year.

Chicago, Nov. 15.—William J. Bryan attended a banquet at the hotel La Salle, called upon United States Senator Kern, and left for St. Louis. He discussed politics, and wound up by asserting that he would not again be a candidate for the presidency. Asked for an opinion concerning the recent developments in politics, he said:

"The returns, taking the country over, indicate no landslide in prospect toward either party. Republican gains in the east indicate that predatory interests are lining up back of the president. Every inch of ground will have to be fought over. We have another session of congress, which will materially affect the campaign, and of course no one can speak with any certainty in advance."

Missouri Courts Oust Trust

Harvester Combine Before Leaving Must Pay Fine of \$50,000.

Jefferson City, Mo., Nov. 15.—Characterizing the International Harvester company as a "gigantic and nefarious scheme," and passing upon it practically the same judgment rendered in the case of the Waters-Pierce Oil company in connection with the Standard Oil case, Judge Graves of the supreme court of Missouri wrote the controlling opinion in the International Harvester case, holding that the company should be ousted and fined \$50,000.

The ouster will be suspended, says the court, by the payment of the fine within 60 days, and if in that time the company withdraws from its connection with the New Jersey company it will be allowed to go business in this state.

FOLEY'S HONEY AND TAR COMPOUND

is the best selling cough medicine on the market to-day because it does just exactly what a cough medicine is expected to do: it stops coughs and colds speedily and effectively. Should be kept in the house constantly where there are children. A prompt help for croup and whooping cough. Give it to your children. Take it yourself. Contains no opiates. The genuine is in a yellow package. FOR SALE BY BLACKMER & TANQUARY.

PROPOSED CHANGES IN CONGRESSIONAL DISTRICTS

Following are features of the Ohio Congressional gerrymander bill as drafted by the subcommittee, which consisted of Congressman Goeke, State Oil Inspector Finley, Senator T. A. Dean, Representative W. D. Fulton and E. H. Moore, state insurance commissioner:

DEMOCRATIC.			REPUBLICAN.		
Dis.	Majority.	Population.	Dis.	Majority.	Population.
First	2,855	230,366	Second	4,333	230,366
Third	5,141	234,034	Sixth	8,141	185,759
Fourth	2,887	195,259	Seventh	2,507	213,569
Fifth	2,743	180,573	Ninth	12,209	192,728
Eighth	2,023	225,709	Tenth	5,600	217,879
Eleventh	5,363	193,293	Twelfth	639	221,567
Thirteenth	1,025	206,521	Fifteenth	6,869	204,115
Fourteenth	841	237,862	Sixteenth	5,227	237,979
Seventeenth		217,690	Eighteenth	8,591	238,195
Twentieth		225,007	Nineteenth		228,464
Twenty-first		225,007	Twenty-second		225,007

Majorities are figured on the basis of the Taft-Bryan vote in 1908, when Taft carried Ohio by about the normal Republican majority, 69,591.

Largest district in point of population is the Eighteenth district, with 238,195. The smallest the Fifth, with 180,573. The most of them run close to the average, 216,687. By the present arrangement the districts run from 150,000 to 400,000.

Under the new bill the Democrats would carry 18 or 19, and possibly 20 districts on the basis of the vote of 1910. The districts are so arranged that a drift of sentiment either way will carry a majority of the congressmen.

Individuals are not considered, but political divisions are and counties most easily accessible to each other are thrown together as far as practicable to get the population, geographical lines and political proportions.

AS YOU LIKE IT

Fifty male students working their way through Cornell university by waiting on table in Sage dormitory struck when forced to eat butter that came back from the dining room.

Moving pictures are to supplant the minstrel and burlesque shows as a Thanksgiving and Christmas entertainment at the Ohio penitentiary this year.

At Akron, Judge Wanamaker sentenced Fred Ridge, 34, to 15 years in the penitentiary for the theft of \$10 from a confectionery store.

Warden Jones of the Ohio penitentiary has abolished Sunday visiting, except at the prison chapel services.

Matteo Delomo has confessed to the killing of Mrs. Adolfo Lofaro, her daughter and mother, in Brooklyn. He is a brother of Mrs. Lofaro.

Beattie Flighty In His Action

Paul Beattie Makes and Unmakes Affidavits In Rapid Succession.

Richmond, Va., Nov. 15.—Governor Mann is expected to render a decision some time today in the case of Henry Clay Beattie, Jr., who is to be electrocuted Nov. 24 for wife murder. The governor has been strongly urged to commute the sentence to life imprisonment.

The affidavit signed by Paul Beattie, cousin of the condemned man, who was one of the state's principal witnesses at the trial, was presented to the governor. In the affidavit Paul Beattie says that while a prisoner in jail and with suspicion directed toward him, he made statements that were untrue. He says:

"I did not give the gun in question to my cousin, Henry Clay Beattie, Saturday night, July 15, 1911, and I had said gun Sunday morning, July 16, 1911, at the cement house near the Mayo bridge, as stated by E. H. Neblett on the witness stand; and H. C. Beattie, Jr., did not make a confession to me on his father's porch nor had he ever made such a confession to me any time or place."

After signing the affidavit in Washington Paul Beattie and his wife called at the police station and made a sworn statement to the officers in charge to the effect that he never visited a notary in Washington and had not made an affidavit. He alleged he was lured to Washington on promise of a job, was drugged and made to sign the papers in question.

Now on sale at Rodecker's News Stand. 262 tf

TEAMSTERS REFUSE AID

Action Breaks Backbone of Street Cleaners' Strike.

New York, Nov. 15.—The strike of the drivers of the street cleaning department has fizzled out. Commissioner Edwards has more than enough hired strikebreakers and civil service recruits are pouring in. The department, having made steady progress in Brooklyn, got under full headway in Manhattan and the Bronx. The police, supported by the magistrates, have repressed disorder vigorously, and brick throwers and hooligans have disappeared from the streets. Threats of the strike leaders to bring about a general strike of the teamsters did not materialize.

Blizzard Is On Its Way.

Omaha, Nov. 15.—Another cold wave and blizzard is en route east and zero weather will strike the central west today. Reports from railroads in the northwest are that another cold wave is sweeping down from Montana.

Lenox Women Released

Washington, Pa., Nov. 15.—The jury secured by Coroner James T. Heffner to inquire into the death of Captain William J. Dulany decided that he committed suicide. The principal witnesses were Mrs. Rose Lenox and her daughter, in whose house the captain was found with a bullet in his head last Friday. They were discharged from custody.

Raise Funds For McNamara.

Atlanta, Ga., Nov. 15.—An attack on the courts of Florida and an announcement that \$250,000 had been raised to defend the McNamara brothers were the principal features of the session of the convention of the American Federation of Labor.

Bigelow Says He Is Not Backing Dayton Man For Governor.

Cleveland, O., Nov. 15.—Progressives of the Cuyahoga county constitutional convention delegation met Herbert S. Bigelow of Cincinnati to lay plans for a definite line of action to be pursued in the convention.

Bigelow made emphatic denial that he is a party to any deal to throw progressive support to Congressman James M. Cox for governor to succeed Harmon, in return for financial support for Harmon for president from John R. McLean and money interests influenced by McLean.

Bigelow, probable president of the coming constitutional convention, told members of the Cuyahoga county convention delegation that he favors retention of the present constitution and the separate submission, as amendments of the liquor question, the initiative and referendum and home rule for municipalities. Pledged progressives throughout Ohio will consider adoption of this or other plans in pre-convention caucuses.

Consuls to Withdraw.

Nanking, Nov. 15.—The British and German admirals visited Nanking and advised the foreign consuls and their staffs to withdraw, as the warships could not protect the consulates.

Alleged Crook Captured.

Akron, O., Nov. 15.—Ollie Baker of Canton, wanted on a charge of highway robbery, and who disappeared from that city immediately after the alleged offense was committed, was arrested here.

O'Brien Presents Credentials.

Rome, Nov. 15.—United States Ambassador Thomas J. O'Brien presented his credentials to King Victor Emmanuel.

Q.—Is it true that the "Highway of Holiness" is opened up now and that the way of salvation is so plain that a "wayfaring man though a fool shall not err therein" (Isaiah xxxv, 8-10)? If the way is so plain and clear and simple that a foolish person need make no mistake about it, then why is there so much confusion among the learned clergymen, Doctors of Divinity, etc., as to the proper methods of salvation, some teaching one thing and some another?

As an honest skeptic and one seeking to know the way of salvation, can you direct the way of salvation, can you direct me to this "Highway?"

Answer.—We are not surprised that you have failed to find the "Highway." The Lord Jesus referring to the conditions of salvation during this present Gospel Age, declares that "Strait is the gate and narrow is the way that leadeth unto life and few there be that find it." As a matter of fact the Scriptures point out three ways:—"The broadway, leading to destruction," "The narrow way to life," and the "Highway of Holiness." (Matthew vii, 13, 14; Isaiah xxxv, 8, 9.) It is very evident from the conditions which you mention, that the latter of these ways has not been in existence thus far, but as the Scriptures affirm, it will be opened up for the world at the time of our Lord's second coming. Then when Satan, that old "lion" (I Peter v, 8), is bound (Revelation xx, 2), the Prophet's words shall be fulfilled,—"No lion shall be there," and "the redeemed of the Lord (the world of mankind) shall go up thereon with everlasting joy and singing upon their heads, and sorrow and sighing shall flee away."

HOT WATER BOTTLES

Have you a good one? Have you any at all? If not you don't know what comfort they are. They take the place of old-fashioned hot bandages, applications, stones, etc. We have them from 75c to \$2 each. Do not consider yourself under obligations to buy simply because you look at these Hot Water Bottles. We merely want you to know all about them so that if you should ever have need of one you will come here for it.

Cochran Church Damaged by Storm

Cochran church, seven miles south of this city, was badly damaged by the violent wind storm Sunday morning, one of the chimneys being blown down, crashing through the slate roof and breaking three rafters.

The damaged roof allowed the rain and snow to pour through the roof, causing some damage.

Besides this damage the storm scattered a great deal of corn and fodder, wrecked fences, and trees were blown to the earth. The damage throughout southern Fayette was very heavy.

Coroner's Inquest Still Unfinished

The examination being made by Coroner L. P. Howell in the circumstances surrounding the death of Jesse Holland one week ago, has not been finished, although it has been in progress at various times for several days.

An investigation is being conducted by the prosecuting attorney, it is claimed, but no information has been given out as to when the findings will be made public.

It has been proven almost conclusively that Holland met his death by strychnine poisoning, and how he came by this poison is now being ferreted out.

Columbus Avenue

Members of Ohio's Quota Indorse Bill

(Continued from Page One.)

Congressman J. D. Post from this, the seventh district, returned home from Columbus on the 6:07 train Tuesday evening. When asked what he thought of the proposed redistricting bill, Mr. Post declined to discuss the matter.

It was plain to be seen, however, that the proposed bill placing him as it would, in a district overwhelmingly Republican, did not meet with his enthusiastic endorsement. That he and his friends throughout the district will fight the bill to a finish seems to be everywhere taken for granted. In Clark county, among the Democratic leaders there is a great deal of dissatisfaction with the proposed measure as there is also in Miami county.

The first-named county would, like Fayette, be placed in a district in which Democratic success would be scarcely a possibility, while Miami, a Republican county, would be placed in a district so pronouncedly Democratic that hope of success in the party primaries would be entirely denied to the Democrats of that county.

The general impression prevails among the friends of the congressmen whom it is proposed to legislate out entirely, that the plan is one formulated by Ed H. Moore of Youngstown, the present State Insurance Commissioner, a Harmon appointee, for the purpose of securing the greatest possible number of delegates to the next National Convention, who will support Governor Harmon's aspirations for the presidential nomination.

It has been current talk for some time, ever since the appointment of Mr. Moore in fact, and the action of the legislature in increasing the salary of the position to which he was appointed, that he was to be the Harmon organizer in Ohio. His appointment on the sub-committee as the governor's representative increased that talk and the present proposal of the committee is regarded by those who have been entertaining those views as confirmatory of their fears.

It has been an open secret for two

years that the relations between Governor Harmon and the State Democratic organization were strained and since the election of Senator Atlee Pomerene the fight has been an open one.

It has been conceded on all sides that if Governor Harmon obtained a solid delegation from Ohio to the National convention it would be only after a fight with the major part of the state organization.

In this redistricting proposal the governor's opponents claim to see the fine hand of Harmon, and are bitterly opposing it as a move for delegates to the National convention without regard to the claims of the present Congressmen or the people of the districts, all of which they claim is only another evidence of the governor's selfishness.

Congressmen Sharp openly opposed the redistricting of the state under the plan proposed or under any other plan, claiming that it was wrong on principle.

Mr. Post opposed the plan suggested and presented his views to the caucus, stating that if a redistricting of the state was made that it should be done with due regard for the expressed wishes of a majority of the voters of the state.

The general opinion seems to prevail that the governor will not in the face of the open opposition which has developed in the ranks of the congressional delegation and in the state organization, call an extra session of the legislature and attempt to force the passage of the bill presented.

The opponents of the governor charge and his friends tacitly admit, that the proposed bill, heralded widely as a non-partisan and fair redistricting measure is the rankest sort of a political measure, one solely in the interest of the governor's presidential candidacy and at the cost of his party.

The passage of this bill, it is contended, will perhaps secure the governor Ohio's delegation to the next National convention, but will at the same time convert the present prospects of continued Democratic success in the state, into a slender hope only.

The Royal Arch Masons

Last Night's Ceremonies and Banquet Following Work in Most Excellent Master's Degree Was the Finest Ever Held in the History of Local Chapter---Work Rarely Undertaken Outside of Larger Cities.

Tuesday night marked an epoch in the history of Fayette chapter, Royal Arch Masons of this city, and the Masonic Temple held a notable gathering of the fraternity to witness the conferring of the Most Excellent Masters' degree, the Degree Beautiful, upon a class of three candidates.

It was distinctively the most ambitious work ever attempted in the local chapter, the putting on of this degree in full ceremonial form. Seldom indeed does a lodge outside of the larger cities aspire to it, and it was put on for the first time in the local lodge.

The magnificent degree work, the sumptuous banquet which preceded it and the large number of prominent chapter Masons from all over this section of the state combined to make the affair a complete success that redounds to the honor and glory of Fayette Chapter, R. A. M.

Over two hundred local and visiting Chapter Masons crowded the dining hall of the Temple at half past six o'clock, when Smith Brothers, pastmasters in the art of catering, served an elaborate banquet of three courses, the long tables exceedingly pretty with fruit decorations.

Four tables the length of the hall were filled three times.

At eight o'clock the work began in charge of Lee Des Martin, acting as Most Excellent King Solomon.

The degree is strictly religious, taken from the Old Testament, and given in its full form and elaborately costumed, with beautiful music, was impressive to a degree that held the great gathering of men spell-bound. The candidates were: Roy G. Mallow, Albert Easley, H. R. Gallagher.

The musical program under Dr. L. P. Howell, musical director, was a dominant feature of the work and superbly rendered by a vocal quartet, Mrs. Amy Wilson Hudson, Gordonsville, Va., soprano; Mrs. Mary Goldsberry Burgett, contralto; Rev. Hugh Hardin Hudson, Gordonsville, tenor; Mr. Walter Sprenger, bass; Miss Myrtle Bonham, pianist; Mr. Fred

Jones, violin; Mr. Howard Allen, trombone; Mr. Stanley Lawwill, cornetist; Mr. Odd Ott, bugler.

In harmonious accord with the working out of the degree were the numbers rendered: "The Priests' March," Glueck; "The Earth is the Lord's Chant," "Chant of Our Lord's Prayer," march by orchestra, "Gloria In Excelsis," Processional March, "Holy, Holy, Holy"; "The Excellent Masters' Song" with solos and duets, "The Heavens are Declaring," "Hark the Song of Jubilee," "Chant of the Lord's Prayer."

Very few of the large number present had ever seen the work and its dignity and beauty left a deep impression.

High Priest George B. Swope had the work of the evening in supervision.

Most of the officers and delegations of Masons were present from the chapters of Hillsboro, Blanchester, Wilmington, Sabina, Jeffersonville, London, Greenfield, Xenia, Bainbridge, Mt. Sterling, Jamestown and New Holland.

HEALTH HINT FOR TODAY.

To Escape Appendicitis.

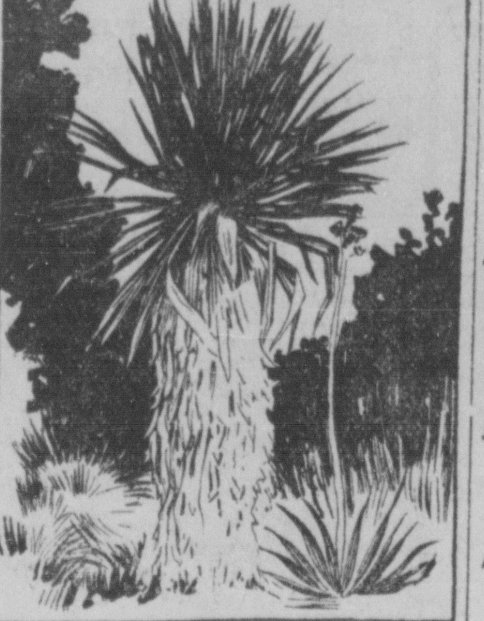

A simple way to prevent appendicitis was recently described by a well known physician. Every night and morning, he advised, go on your knees, bend backward until you sit on your heels, and at the same time bend the upper part of your body forward as far as possible. Do this six to ten times. You may vary the exercise by standing with heels together and toes pointing straight forward and then stooping into a sitting posture until the knees touch the chest. Do this also six or eight times slowly. The effect is to stir up the intestine in the neighborhood of the vermiform appendix and to keep it free from the obstruction which is the primary cause of appendicitis.

VEGETABLE KINGDOM ODDITY

Queer Plant Without Particular Economic Value Which Thrives in Semi-Arid Regions.

Houston, Tex.—One of the oddities of the vegetable kingdom is the Samuela, or Sierra Blanca yucca, of southwestern Texas. The Samuela is related, botanically, to the arborescent yucca, or Joshua tree, of the Mojave desert, and to the Spanish bayonet, that thrives throughout the semi-arid region of the southwest. However, in appearance it resembles neither.

It grows to a height of from 10 to 20 feet, usually in straight, columnar

The Samuela.

form, without branches. At the top is a great number of smooth, dark-green leaves, each of which tapers to a point at the end. As new leaves develop the old ones die, shrivel and turn back along the trunk, which is thus sheathed in a thatch-like covering of recurved leaves. The plant is without particular economic value, although the fibrous leaves are utilized by the Indians in basket-making, mat-weaving and for similar purposes.

STOCKMAN LIVES IN 4 STATES

Puzzled to Know in Which of the Commonwealths He Rightfully Belongs.

Chicago.—Dispatches have brought to Chicago the most doleful predicament of Fred Terron, stockman. Regularly the name of Mr. Terron's state or county would be appended, but the correspondents were unable to enlighten the world further about the stockman, because he himself does not know in which of four states he lives.

His position is most puzzling, not to say embarrassing, above all, when he visits foreign parts and wants to put his place of habitation on the hotel register with his name. He is literally a man without a state. He gets up each morning in Utah, eats breakfast in Colorado, which his wife prepared in Arizona, and smokes his pipe after supper in New Mexico. He

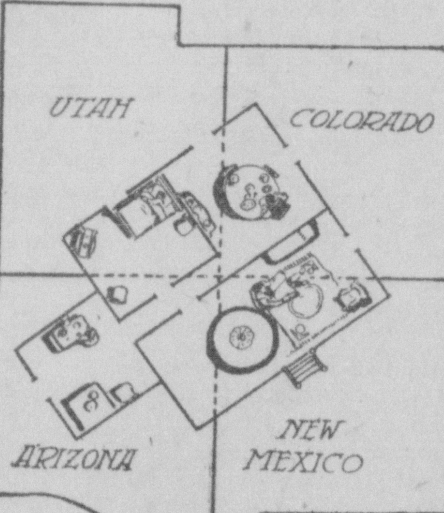

Diagram of Terron's Home.

carries on all these multifarious activities under his own roof tree, since his ranch extends into the four states mentioned and his house occupies the exact point where the boundary lines join.

ARE MAKING EUROPE RICH

Americans Spent \$200,000,000 Last Year Abroad—Money Belonged in America.

Washington.—About 290,000 Americans went abroad during the last fiscal year and spent fully \$200,000,000 on passage across the Atlantic, hotel bills, railway transportation, amusements and for miscellaneous purposes, according to a statement by John Ball Osborne, chief of the bureau of trade relations of the state department.

Of this number 220,000 were about equally divided between first and second cabin passengers, with an average expenditure of \$800, and the remainder were steerage. These figures do not include the large sum annually spent for jewelry, clothing and other articles.

The cost of running the municipal governments of 16 of the larger cities during the calendar year 1908 was only \$274,000,000. This includes outlays for general and special service expenses such as police and fire protection, health, highways, charities, hospitals, education, recreation, etc.

"A large part of this vast amount is undoubtedly spent in France, particularly in Paris," said Mr. Osborne.

"Just pause a moment and think of that \$200,000,000 was kept in this country," he continued, "it would buy 44 5-cent loaves of bread for each one of the 90,000,000 of men, women and children, or supply at least a half dozen shirts to every man over sixteen years old."

WE SERVE

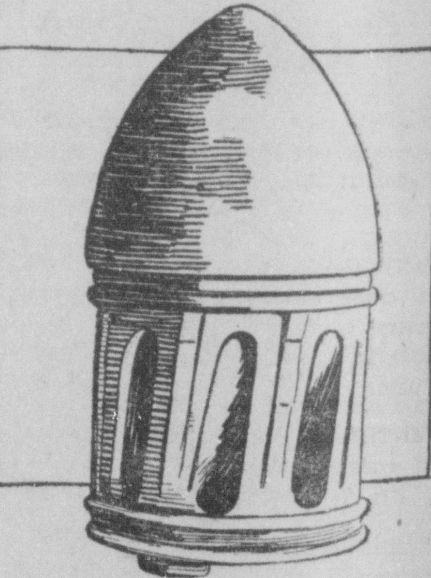

Depositors and borrowers. We pay depositors five per cent interest on their money and loan it safely to would-be home owners at six. We help people get homes. We encourage people to save their money. Our aim is to be of real service to both. The Buckeye State Building and Loan Company, Rankin Building, 22 West Gay street, Columbus, Ohio. Our assets over \$5,000,000. The patronage of the reader is respectfully solicited.

MISSILE OF SIXTIES

James Projectile Used During Civil War.

An Old-Time Artillery Missile Made of Cast Iron, and of Most Peculiar and Interesting Construction.

Philadelphia, Pa.—Of the many styles of artillery projectiles made and used during the War for the Union those constructed on General James' plan were among the most interesting and useful. This invention, however, was not one of those springing directly out of the sudden and intense study given by Americans to military matters, the system having been devised and subjected to severe tests several years before the opening of the Civil war. Shot and shell on this principle were elongated and, of course, were intended for rifled cannon only. The James missile was of cast iron, cylindrical, the whole forward portion—the point—being solid, if a shot, and hollowed and provided with a percussion fuse, if a bombshell. In the base of the projectile there is a central orifice extending into the cylinder and from this orifice (as seen in the illustration) ten almost rectangular openings diverge (like the mortises for spokes in a wheel-hub) through the body to the exterior. In recesses on the outside of the projectile is the "packing," an envelope of strong canvas, sheet-iron and lead, suitably arranged for the peculiar work assigned for it. On the outside is the canvas, which is well-saturated with a tallow lubricant. In making the heavy tin envelope is secured in its place by an iron collar, and the space between the tin and the body of the cylinder is filled with molten

James Projectile.

lead, which, adhering to the tin and to the iron, forms a compact mass around the projectile.

When the gun is fired the powder gases are forced into a base of the projectile, and through the ten openings against the packing, and this, expanded into the rifling of the gun, imparts to the shot or shell the required rotation in flight. The "packing" selected by this inventor was carefully thought out; and, as the lead, melted into its place, had an exceedingly tenacious grip, and as the force of the powder charge could expand the "packing" no farther than the grooves of the gun, there were no complaints as to the packing being blown off in fragments before the missile had completed its journey.

The average weight of the James solid shot for a 42-pounder is 8 1/2 pounds, or if a shell, 6 1/2 pounds, of which, in either case, 6 1/2 pounds is the weight of the "packing."

COUGHING AT NIGHT.

Means loss of sleep which is bad for the children and hard on grown persons. Foley's Honey and Tar Compound stops the cough at once, relieves the tickling and dryness in the throat and heals the inflamed membranes. Contains no opiates and is best for children and delicate persons. Refuse substitutes. Blackmer & Tanquary.

TURN OUT IN DROVES

The Local Nimrods Are Afield Bright and Early This Morning and the Pop of the Gun is Heard in All Directions.

Bang! Bang! Bangetybang! This was heard on all sides throughout the county Wednesday, and the farmer who had forgotten that it was the first day of the rabbit and quail law, was made aware of the fact at daylight, when his city cousin, who has been cleaning and recleaning his fowling piece for the past two weeks in order to have everything in readiness for the first day's sport, showed up bright and early—the earliest he had arisen since just one year ago to the day.

The fields and woodlots are literally

alive with hunters—men, boys and dogs, and Mr. Bob White and Bre'r Rabbit bear the brunt of the onslaught, and the decrease in numbers is alarmingly large.

Both quail and rabbit are reported in large numbers, but scores of farmers have issued warning to all hunters to "beware, or else—!" The hunter who disregards this warning will certainly meet with swift punishment if the farmer makes good his warning.

Fully a hundred men and boys from this city left early Wednesday morning for the day's sport.

The Relief Corps' Pleasant Meeting

John M. Bell Relief Corps No. 12, held a very enjoyable meeting Monday night in Memorial Hall. Mrs. Brunella Miesse, of Lancaster, the inspector, was present and fifty-six members were present. The work of the corps was very creditably performed. Mrs. Miesse complimented the corps very highly on the work.

A delightful social hour, with refreshments, ended one of the most memorable meetings of the year.

Election Cost In Pickaway

The local option election in Pickaway county cost the wets and dries \$2,452.88. This amount was outside of the large sum it cost the county for ballots, clerks and judges. Of the above amount the wets spent \$1,224.55 and the dries \$1,228.33, for advertising, bands, speakers, conveyances and challenges. It is said that this represents a very small amount of the actual expenditures.

MRS. WILL PALMER DYING IN EL PASO.

Washington friends will learn with much regret of the serious condition of Mrs. Will Palmer at her home in El Paso, Texas.

Miss Mary Pinkerton received a letter from Mr. Palmer giving the sad information that his wife's condition admitted of no hope and that it was only a question of a short time before she would be brought to this city to be laid beside her baby boy in the Washington cemetery. A telegram is expected any hour.

The Willing Workers of East End Chapel will have a sale of eatables at Haynes' Furniture Store, Saturday, November 18th. 270 5t

COLORED HUNTERS SHOOT CHICKENS

And Are Pursued by Angry Farmers With Guns---May Be Arrested Later in Day.

Two unknown colored men, hailing from Springfield and said to have been drinking, left this city early Wednesday morning going out on the Chillicothe pike, for a day's hunting.

When near the residence of David Hagler, ten miles south of town, the men stopped their horse and deliberately shot one of Mr. Hagler's chickens, hurriedly picking it up and concealing it in the buggy.

This aroused the ire of Mr. Hagler, and assisted by Mr. Almer Hagler, they armed themselves with shot guns and started in pursuit, overtaking the two negroes some two miles away. They called a halt, and the negroes at first talked of using

their guns, but Mr. Almer Hagler, who had left his own rig in the care of his brother, told them that his gun would shoot as hard as their own.

After some little altercation the men said they had no chicken, and pulled the robe out to prove their statement. The chicken was nowhere to be seen, but a cloud of Plymouth rock-chicken feathers rolled from the robe.

The men were allowed to go, but later the dead fowl was found in a culvert where it had been hidden when the men discovered that they were pursued.

Upon their return to this city they may be placed under arrest.

LITTLE DONE WITH NERVES ON EDGE

Debilitated Condition Saps Life and Energy from People Who Need All Their Strength.

Half sick, tired all the time, no energy or ambition, with your nerves on edge and your stomach out of order, how can you expect to get any happiness out of life when in such a miserable state?

You can't, and you won't, until you find relief from the debilitated condition that is sapping your vitality and robbing you of your strength.

Physicians know that half the population in the larger cities of this country are today afflicted with nervous debility caused by the wear and tear of modern life.

A preparation has been used by European physicians to combat this nervous condition with remarkable success. A similar preparation "Tona Vita" was introduced in this country a few months ago and is making a marvelous record here. "Tona Vita" is bringing back health and happiness to thousands of listless, debilitated men and women. You owe it to your family, you owe it to yourself to let this wonderful new tonic build you up. There is no other medicine like it on earth, one dose will convince any one of this. If "Tona Vita" doesn't do more for you than all the other medicines you have ever taken, if it doesn't make you happier and healthier and better in every way, what you pay for it will be returned to you by Brown's Drug Store.

Lee's Rhubarb Laxative, the assistant remedy, is another great medicine. It is a splendid family laxative, containing the medicinal properties of rhubarb—nature's own laxative. It will not injure the most delicate constitution and should be used for children above everything else. It is pleasant to the taste. Brown's Drug Store has the Washington C. H., O., agency for "Tona Vita" and Lee's Rhubarb Laxative.

More Cases of Diphtheria In the Country Schools

Comet College, Sub-district No. 8, on the Greenfield pike, has been closed owing to a threatened outbreak of diphtheria, one case having made its appearance in the neighborhood. School was closed last week, and will remain closed until next Monday, when, if there are no new cases of the disease, school will be resumed once more.

This is the fourth school in Union township which has been closed this fall because of diphtheria. Last week the Culpepper school was closed on account of the disease, but school reopened there Monday. In no instance have the cases been of a malignant form, and some question has been raised as to whether or not the disease was diphtheria.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dan-

druff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, Brown's Drug Store.

STILTS USED IN HOP FIELDS

Mounted Upon These, a Man Can Do Six Times the Ordinary Amount of Work.

London.—In the English hop fields thousands of laborers are employed in making the crop. Stringing the hop poles for the vines to climb upon is one of the most interesting features of the work, and makes the fields look like giant spiders' webs. The strings are at the top of the pole some 15 feet from the ground and in the past have generally been put on by men standing on the top of large steps and considerable time was used up in moving the platform from place to

Hop-Picker on Stilts.

place. To avoid this trouble and to save time the English farmers in Kent put their men on stilts which have rests and overshoes into which the feet can be securely strapped 12 feet from the ground. Mounted upon these stilts a man can do six times the work done by the ordinary method.

The principal use of hops is in making beer. For a thousand years or more hops have been added to beer, in former times to prevent its spoiling and to give it its characteristic flavor. Germany and England had hop gardens in the eighth century and the growing of hops has increased with the growth of the brewing industry.

In the United States the culture of hops was introduced in 1625 in New Netherlands and was some years later begun in Virginia. At first Massachusetts, Vermont and Maine were the chief hop states, but the industry has been slowly moving westward although New York has for many years maintained its lead in production.

THE STOLEN "MONA LISA"

Painting on Which Da Vinci Worked Four Years and Then Pronounced Uncompleted.

Paris.—The famous painting, on which Leonardo da Vinci worked from 1502 to 1506 and then pronounced un-

completed, was boldly carried from the Salon Carré of the Louvre. Da Vinci devoted most of his work on the painting to the smile on the woman's features, which is considered peculiarly attractive. He sold it to Francis the First for what would be \$2,400 of our money. Recently the British government is said to have offered \$1,000,000 for it. The French calls the painting "La Joconde." Attendants at the Salon Carré tell of having wondered at the rapt and longing regard given the portrait by a young man who, during recent weeks, frequently visited the Louvre. He was blond and had blue eyes. He would gaze strangely at the dark Italian beauty as though enthralled by her "divine smile." The theory presented to M. Hamard, head of the French secret service, is that this man abducted "Mona Lisa" so that he may have her always near him.

Sporting World

ILLINOIS STAR BREAKS SHOULDER BLADE

Otto Seiler, Whose Football Career is Ended.

Otto Seiler's football career ended recently when the Illinois star, falling on the ball, broke his right shoulder blade. This is his final year of football, as he is a senior in the university.

Seiler went down the field on an on-side kick by Woolston and fell upon the ball in such a manner as to fracture his right shoulder blade.

Seiler came into general notice last season when his drop kicks won the Chicago, Indiana and Syracuse games. He was generally allotted an all-western berth by the critics. He was unable to repeat in the Chicago this year, a wet field and a weak line

handicapping him. Head Coach Hall placed great confidence in his foot, however, and he was accounted a valuable asset for the rest of the schedule.

Seiler's most remarkable drop kick was at Bloomington, Ind., last fall, when he lifted a goal on a soggy field on the 45-yard line from a most difficult angle.

Conley and Gilmore Separate.

Harry Gilmore Jr. of Chicago and Frankie Conley, the Kenosha scrapper, have severed relations, and the latter now declares that he will handle his own affairs.

BADGER'S "COME BACK" STAR

"Keckie" Moll, After Rest of Year, Resumes Position at Quarterback—Better Than Ever.

One of the sensations at Madison this season was the return to the game of "Keckie" Moll at quarterback. The little fellow's rest of a year seems to have been a great benefit to him. He has come back with a determination and willingness to work that has indicated a conception of that

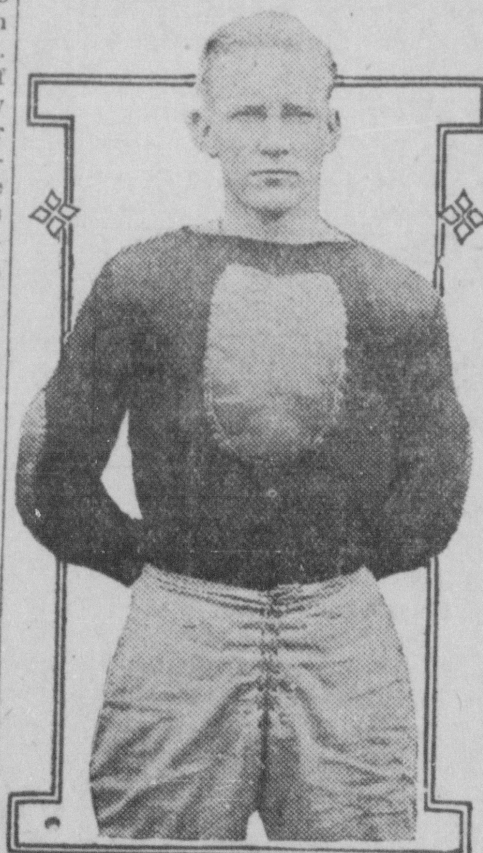

ANSON DISCUSSES ONE PLAY

New York Captain's Move in World's Championship Ball Series Is Analyzed by Veteran.

Capt. Adrian C. Anson, writing for the Chicago Daily News, comments on the one play, if any one could be chosen, which was the deciding one in a baseball game. Capt. Larry Doyle's failure to attempt the easy double play he had in sight in the fourth inning of the final world's series ball game and his late throw home that let Baker score and kept Murphy and Davis on the bags was the real turning point of that struggle.

In this inning Baker led off with a single. On the hit and run Murphy patted a long liner to the left field fence, Baker taking third, but Devore's fast fielding held Murphy at first. Davis hit an easy grounder into Doyle's hands and the latter, with an easy double play in sight, hesitated a moment and then threw home, but too late to catch Baker. Murphy took second on the throw to the plate, while Davis was safe at first. If Doyle had tried for a double play he could have wiped both Murphy and Davis off the bags. Then Barry would have had no occasion to bunt, and more than likely would have been an easy out. This would have kept Ames in the game, and, though the Athletics most probably would have won out, the final score would hardly have been the crushing total of 13 to 2.

At that stage of the game, so early in the action, it would have been good policy, in Anson's opinion, to have let that one run in and make sure of getting both the other base runners. All Doyle had to do was to throw the ball to first and get Davis, then run down Murphy between the bags.

"Keckie" Moll.

about which so much is heard—"the true Wisconsin spirit." He has lost none of his old-time accuracy in passing and booting while his endurance is better than it has been since the days of his freshman year.

FAMOUS TRACK MAY BE SOLD

Gravesend Property Is Too Valuable to Lie Idle Until Racing Is Restored in New York.

A statement made the other day by one of the foremost turfmen of New York indicated that the associations which conducted horse racing there about until this season had about given up hope that the game would ever again be even half way legitimized.

Phil Dwyer, president of the Brooklyn Jockey club, said: "There will be a meeting of our club shortly, which shall decide whether we shall hold the Gravesend track, which we own, or shall give it up and allow it to be cut into building lots."

"I shall advise the Jockey club to sell the track, for, in my opinion, horse racing cannot come back inside of two or three years. And I think we'd be better off getting some return from the track by way of a sale, rather than letting it lie idle."

Mr. Dwyer and other turfmen who were with him seemed very much depressed over the fact that the Gittins bill (which might have allowed racing to go on by exempting its directors from personal prosecution) had not been passed by the session of the legislature which concluded a few days ago at Albany.

Is winter here? Have a basketball score!

Echoes of the world's series are growing fainter.

Is the thumb lame from the first season bowling?

Matt Wells doesn't find American climate salubrious.

Apparently autumn automobile runs are good for the cars.

Ad Wolgast is barred from England. Any knockout is illegal over there.

Billy Papke and Bob Moha ought to be extremely popular in merry England.

Which is harder, for a fighter to bring out a manager or a manager to bring out a fight?

Women golfers as usual beat the men to their election of officers by about two months.

Clark Griffith's return to the American league seems to be welcomed by the powers that be.

Take Ty Cobb and Hughie Jennings out of Detroit and it would be a pleasant summer resort.

A regular bowler's idea of nothing to do is to play duck pins, the national game of winter in the east.

One football player broke an ankle while catching punts in practice before the game started. What a brutal game football is!

Fans want to know how Cincinnati will like its new manager. They say those fans have as little liking for managers as for umpires.

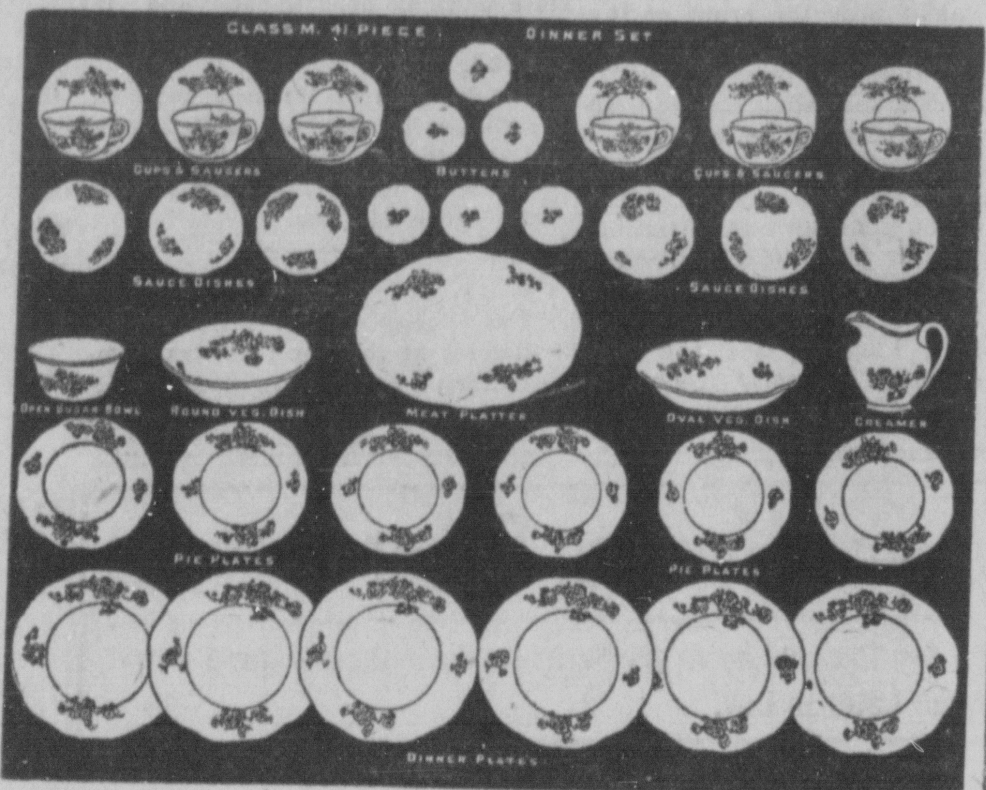

Here is a fine new word, "motorcade." Do you get it? With a couple more like this one a man ought to be welcome in any society.
